

# 1958

Name	What I did after Leaving Homefield Preparatory School	What I am doing now
Terence (Terry) Coupland	Trained in medicine at Barts, emigrated to Australia, specialised in Anaesthesia, worked for a spell in the Middle East (10 years), Hong Kong and Brunei, returned to Australia. I live in Toowoomba, Queensland which is a large country town with a population of 165,000	I still work part time as a private anaesthetist because I enjoy my job. The best decision which I made in my life was to emigrate to Oz - it is a truly wonderful country
Guy Watson	I went to KCS Wimbledon until 1963 and then Sheffield University (1963-1966) to read Mechanical Engineering after which I joined the Steel industry, working in several places finishing up in Workington. Moving to London in 1970 I experienced light engineering before joining the HM Factory Inspectorate in 1974 which was absorbed into the Health and Safety Executive the following year. I retired in 1995 on health grounds having been diagnosed with multiple sclerosis in 1988.	I am largely inactive now as my condition has worsened and I can no longer carry out even the limited charitable work that I have been doing since I came to Worcester in 2002 following the breakdown of my marriage.
