

Homefield Preparatory School

Accessibility Plan and Policy

Ethos and Aims of Homefield Preparatory School

Homefield Preparatory School ('the School') strives to be a fully inclusive and welcoming school and therefore aims to ensure that each and every pupil can participate fully in the life of the School.

The School provides all pupils with a broad and balanced curriculum, differentiated and adjusted to meet the needs of individual pupils. The School has consulted staff with responsibility for the induction arrangements for new pupils to ensure that the particular needs of disabled pupils are recognised in advance. Where appropriate, staff are trained to understand the types of disabilities and how to support pupils and parents who have a disability. However, staff will only administer medication in accordance with the First Aid Policy.

The School will implement and review the policy with the aim of increasing the accessibility of the school's curriculum and improving the physical environment of the school.

Definition of Disability and Scope of the Plan

A child or young person is disabled if they have a physical or mental impairment which has a substantial and long-term adverse effect on their ability to carry out normal day-to-day activities (as defined by the Equality Act 2010).

Under the Disability Discrimination Act (DDA) 2002, the school has a duty:

- Not to discriminate against disabled pupils in their admissions and exclusions, and including the provision of education and associated services (a term that covers all aspects of school life, including all educational visits and offsite activities);
- Ensure that pupils are not put at a substantial disadvantage, including being treated less favourably, by taking reasonable steps and making reasonable adjustments;
- Schools have a duty to be proactive and to 'anticipate' the likely needs of current and future pupils on school visits, and should not respond reactively or retrospectively.

The policy is focussed on three key aims:

- To increase the extent to which the curriculum is inclusive to all pupils, including the wider curriculum and participation in after-school clubs and visits;
- Improving the school's physical environment and access including physical aids where required for the purpose of increasing the extent to which disabled pupils are able to take advantage of education and benefits, facilities or services provided or offered by the school and
- improve the delivery to disabled pupils, information which is readily accessible to pupils who are not disabled.

How the Plan is Constructed

The School has a disability policy review committee which consists of the members of the Senior Management Team and may co-opt additional members whose expertise in any field would be of assistance. The committee's terms of reference are:

1. to annually review the School's policies, procedures and facilities as they are likely to affect pupils and prospective pupils who are disabled
2. to make recommendations with a view to improving the accessibility of its education in many aspects to pupils or prospective pupils with disabilities by means of reasonable adjustments and by planning for the future
3. to prepare the School's SEN and disability policy
4. to prepare the School's accessibility plan
5. to review such plans and policies as necessary and at least on an annual basis.

The School's disability policy review committee have been central to the drawing up the School's plan. They have considered the following when developing and reviewing the plan:

- Admissions
- Attainment
- Attendance
- Exclusions
- Education
- Extra-curricular activities
- Governing body representation
- Physical school environment
- Selection and recruitment of staff
- Sporting education and activities
- Staff training
- Welfare

The policy and targets are widely circulated to all teaching and support staff, pupils and parents and is available upon request from the School.

How the Policy is reviewed and monitored

The School's Senior Management Team meets annually to discuss disability issues and frame recommendations for inclusion in the policy. Any key recommendations include input from the SMT and are included on the agenda of the Main Board of Governors during the academic year. The policy is then updated with adjusted time-frames where necessary.

The school's governors are ultimately responsible for ensuring the implementation of the accessibility policy during the period to which it relates. A new policy will be drawn up every three years.

Linked Policies:

- Admissions Policy
- Equal Opportunities Policy
- Attendance
- First Aid Policy
- SEND Policy
- Preventing and Tackling Bullying policy
- Whole School Behaviour Policy
- Accessibility and Pupil Disability Discrimination Policy

Action Plan

1. The Action Plan is drawn together by the Senior Management Team and agreed annually. They will monitor and evaluate:
 - the effectiveness of action taken in the previous school year
 - relevant targets for the next school year
 - responses to any future legislative changes
2. The School will keep a record of all reasonable adjustments and it will be available to interested parties (see below).

All children with a medical condition should have an Individual Healthcare Plan (IHP).

An IHP details exactly what care a child needs in school, when they need it and who will provide it.

It should also include information on the impact any health condition may have on a child's learning, behaviour or classroom performance.

This should be drawn up with input from the child (if appropriate) their parent/carer, relevant school staff and healthcare professionals, ideally a specialist if the child has one.

All staff understand and are trained in what to do in an emergency for children with medical conditions at this school.

All school staff, including temporary or supply staff, are aware of the medical conditions at this school and understand their duty of care to pupils in an emergency.

All staff receive training in what to do in an emergency and this is refreshed at least once a year.

A child's IHP, should explain what help they need in an emergency.

The IHP will accompany a pupil should they need to attend hospital. Parental permission will be sought and recorded in the IHP for sharing in an emergency.
